

Jakarta Market Blend – rustic flooring

Locally reclaimed in Portland, Oregon from exotic hardwood shipping crates

Jakarta Market Blend – Rustic

Jakarta Market Blend is a mix of dense hardwoods from the tropical lowlands of Asia, one of the most biologically diverse places on Earth. This wood arrives in Portland, Oregon as transpacific shipping crating, carrying heavy steel railroad track. After enduring punishing conditions of heavy cargoes and rough seas, our rustic face flooring and paneling is bursting with deep black oxide character from where the rail sat on the crates. We reclaim this wood ourselves, to rescue it and give it new life in Jakarta Market Blend

Getting the just the right combination of weathered style and functional substance is an art...we precision mill the face for tight-fitting installation, while retaining the best qualities of the original rustic face. The rustic face is extremely versatile – a light sand or different sheen of finish can alter the look to suit personal preferences. Each one-of-a-kind floor has its own unique character and amazing story that will speak to you.

jakarta market blend – rustic flooring

specification

jakarta market blend –rustic flooring

description

A rich mix of dense tropical hardwoods rescued from transpacific shipping. Jakarta Market Blend – Rustic brings together a wide spectrum of exotic hardwoods preserving the weathered original exterior board faces to create a unique, custom look.

source

Locally reclaimed in Portland, Oregon from exotic hardwood shipping crates. Due to the difficulty in reclaiming the material the wood was previously discarded or burned. Viridian pioneered a process to divert the material from landfills, separate the highest quality wood and give it new life in our flooring and paneling.

net dimensions

thickness: 5/8" face width: 2 1/2" lengths: 1-6 1/2' (average 4'+)

millwork

Flooring is tongue & groove, square edge, end-matched.
Paneling is tongue & groove, square edge, mill run (end cut at time of installation).

species

Mempening, Bintangor, Agoho, Rengas, Mertas, Nayotah, Simpoh, Bitis, Thitka and others (list available upon request). The variability in species is consistent across lots so recurring orders will have a similar random look and feel.

hardness

1100-3500 (Janka scale). Suitable for high traffic & commercial applications.

character

Color: Unlimited color variation is inherent to product, but heavy black oxide staining from the woods' prior use skews even light boards towards the dark spectrum.

The weathered original board face contains slightly uneven surfaces, saw marks and minor indentations from its prior use; unlimited grain combinations including flat, quarter, rift, and plain sawn; heartwood and sapwood; oxide staining and discoloration; infrequent tight knots, infrequent nail holes and some insect holes (all material is kiln dried); very infrequent non-structural checks up to 1/16"

finish

Unfinished.

shipping

All material is FOB Portland. We can coordinate local or national delivery.
Material is bundle packaged and bundles are packed into units 4' wide x up to 6 1/2' long.
Estimated ship weight: 3 1/2 pounds per square foot.

installation

Store, handle and install per National Wood Flooring Association (NWFA) guidelines available at viridianwood.com.

LEED

MR 3: Materials Reuse, MR 4: Recycled Content, MR 5: Regional Materials (Portland, OR), MR 7: Certified Wood
Certified recycled 100% (post consumer reclaimed) by Forest Stewardship Council (FSC). Cert No SW-COC-001962.
