Tables & counters locally reclaimed in Portland, Oregon from exotic hardwood shipping crates

Jakarta Market Blend – Tropical Mix tables. Also available in Dark Sort and Light Sort, see [viridianwood.com](http://viridianwood.com) for pictures.

Jakarta Market Blend is a mix of dense hardwoods from the tropical lowlands of Asia, one of the most biologically diverse places on Earth. This wood arrives in Portland, Oregon as transpacific shipping crates. Its proven to withstand punishing conditions of heavy cargoes and rough seas, yet just below the surface of its rugged exterior are gorgeous hardwoods bursting with personality. We reclaim this wood ourselves, to rescue it and give it new life in Jakarta Market Blend. It's extremely versatile – well suited to restaurant tables & counters, office desks and home use. Each one-of-a-kind table has its own unique character and amazing story that will speak to you. Pick your Jakarta colors:

- **LIGHT SORT** brings together the lighter spectrum of our exotic hardwoods. It minimizes the red, brown and graphite tones present in the Tropical Mix, leaving the bright tan, ivory, honey and blond hues.
- **DARK SORT** minimizes ivory, honey and blond hues present to highlight the dark reds, deep golds, rich browns and graphite tones.
- **TROPICAL MIX** is our most popular table option, and brings together the full spectrum of our exotic hardwoods to create a unique, custom look.

Mix and match different Jakarta Market Blend products—tropical mix tables, rustic paneling and decking boards used as banquette seating can create a cohesive look while showcasing the versatility of this amazing wood!

## table & counter specification

Jakarta Market Blend – Dark Sort. Also available in Light Sort and Tropical Mix, see [viridianwood.com](http://viridianwood.com) for pictures.

### description

A rich mix of dense tropical hardwoods rescued from transpacific shipping. Jakarta Market Blend – Tropical Mix brings together a wide spectrum of our exotic hardwoods to create a unique, custom look.

### source

Locally reclaimed in Portland, Oregon from exotic hardwood shipping crates. Due to the difficulty in reclaiming the material the wood was previously discarded or burned. Viridian pioneered a process to divert the material from landfills, separate the highest quality wood and give it new life in our flooring and paneling.

### net dimensions

Thickness: 1½" Standard    Max Width: 48"    Max Length: 12'

### species

Mempening, Bintangor, Agoho, Rengas, Mertas, Nayotah, Simpoh, Bitis, Thitka and others (list available upon request). The variability in species is consistent across lots so recurring orders will have a similar random look and feel.

### hardness

1100-3500 (Janka scale). Suitable for commercial applications

### character

**Color:** Color variation is inherent to product giving it a uniquely reclaimed look. Tropical Mix contains all hues of red, brown, tan, gold, graphite and ivory among others. Exposure to light may cause subtle color changes over time. This natural process, called patina, will add to the beauty and character of your wood. View photos and samples of Light Sort and Dark Sort before ordering. We make every effort to be consistent and representative with our color sorting, however, it is subjective and not guaranteed.

**May contain:** unlimited grain combinations including flat, quarter, rift, and plain sawn; heartwood and sapwood; oxide staining and discoloration from prior use; infrequent tight knots, nail holes and some insect holes (all material is kiln dried); very infrequent non-structural checks up to 1/16"

### finish

Factory applied multi-coat, low VOC Polyurethane.

### shipping

All material is FOB Portland.  
We can coordinate local or national delivery.  
Estimated ship weight: 7 pounds per square foot (standard 1½" thickness)

### LEED

MR 3: Materials Reuse, MR 4: Recycled Content, MR 5: Regional Materials (Portland, OR), MR 7: Certified Wood

Certified recycled 100% (post consumer reclaimed) by Forest Stewardship Council (FSC). Cert No SW-COC-001962.
